Expiry date: 08 September 2015

Dear Mr. Chyn-herng Hwu,

On behalf of the Summit Organizers, we take great pleasure in inviting you as a nominee of the World Technology Network in the category of Education to participate in the 2009 World Technology Summit and Awards, held in association with TIME magazine, Science magazine/AAAS, and others.

The World Technology Summit will be held at the Time and Life Building in New York City, USA from July 15-16, 2009. The Summit will provide an important forum in the exchange of ideas amongst the most innovative people and organizations in the science and technology world. They will come together to honor one another's accomplishments; to explore what is imminent, possible, and important in and around emerging technologies; and to form the relationships that create the future.

The majority of Summit participants will be current WTN members (primarily winners/finalists from previous Awards cycles), 2009 World Technology Award nominees, or those invited through our partners/sponsors.

Finalists and winners of the 2009 World Technology Awards will be revealed at the Awards gala ceremony taking place on the evening of July 16 at Time and Life Building – at the conclusion of the two-day World Technology Summit. The World Technology Awards honor individuals and corporations from twenty (20) technology-related sectors viewed by their peers as being the most innovative and doing the work of the greatest likely long-term significance. Award categories range from biotechnology, space and energy through to ethics, design and entertainment.

We feel that your active participation will be a significant contribution to the Summit and will establish important interaction with experts from other countries.

Due to the limited budget, the Summit Organizers unfortunately do not have the funds to cover individuals' participation expenses (including travel and accommodation).
